Bengaluru, India | +91 8110813471 | srikanthc061@gmail.com | <https://www.linkedin.com/in/srikanthc061> | [Srikanth C | UI/UX Designer](#)

PROFESSIONAL SUMMARY

UI/UX & Product Designer with 1.6+ years designing end-to-end web and mobile experiences for 20+ live products. Combines user-centered design with product thinking — using data (SQL, Power BI, Python) to validate decisions, and AI-assisted workflows to cut design cycle time by ~30%. Built and scaled a shared Figma design system that improved handoff and consistency across teams. Comfortable owning a feature from research through high-fidelity prototype to developer handoff.

CORE SKILLS

- **Product & UX Design:** User Research, Wireframing, High-Fidelity Prototyping, Design Systems, Information Architecture, Usability Testing, Interaction Design
- **Tools:** Figma, Adobe XD, Photoshop, Framer, Stitch
- **Product & Data:** Power BI, Tableau, MySQL, Python (Pandas, Seaborn), A/B Testing fundamentals, Metrics-informed design decisions
- **Frontend:** HTML5, CSS3, JavaScript, React, Git/GitHub — enough to prototype and speak the language of engineering
- **Ways of Working:** Agile/Scrum, Cross-functional Collaboration, Stakeholder Communication, Design Critique

PROFESSIONAL EXPERIENCE

UI/UX Designer | Zikrabyte Solution — Bengaluru, India

May 2025 – July 2026

- Designed end-to-end responsive interfaces for 20+ high-traffic web and mobile applications, taking each from user flows through high-fidelity prototype to developer handoff.
- Cut design ideation and UX documentation cycle time by ~30% by introducing AI-assisted prompting workflows for rapid wireframing and user-flow exploration.
- Built and scaled a shared Figma component library and design guideline system adopted across product teams, reducing handoff time and eliminating inconsistent UI patterns.
- Ran structured usability testing with participants per cycle, translating findings into fixes that reduced user errors on critical flows such as [checkout / onboarding].
- Partnered with product managers and engineers in sprint planning and design critique, aligning design decisions to product goals and delivery timelines.

UI/UX Designer — Intern | FITA Academy — Chennai, India

Nov 2024 – Jan 2025

- Applied design-thinking methodology to build responsive, multi-platform layouts optimized across desktop, tablet, and mobile breakpoints.
- Built functional front-end prototypes in HTML5, CSS3, and JavaScript, enabling accurate, low-friction handoff to engineering.

SELECTED PROJECTS

Pepe Jeans — E-commerce Website

- **Pepe Jeans London** is a British denim and casual-wear fashion brand founded in London in 1973. The brand operates internationally and offers jeans, apparel, footwear, and accessories for men, women, and kids. The redesign project focused on enhancing its e-commerce experience with a modern, intuitive, and responsive interface.

Smarted Lab — AI-Powered Language Learning Platform

- Designed the end-to-end UX for a multi-tenant learning ecosystem serving students, institutions, and training organizations across self-paced courses, live instructor dashboards, real-time AI feedback, and interactive LSRW skill modules.

SellSmart — AI-Powered Electronics Resale Platform

- Designed a trust-focused e-commerce flow optimized for fast conversion — instant AI-based price valuation and doorstep pickup scheduling in as few steps as possible.

EDUCATION & CERTIFICATIONS

- B.Sc. Computer Science - Jairam Arts & Science College (2021-2024)
- Data Analysis with Python, SQL & Visualization - Udemy (Nov 2025)
- Cybersecurity Orientation Program (Mar 2024) | DevOps with AWS - (in progress)
