PROFESSIONAL SUMMARY

Data-informed UI/UX Designer with over 1.3+ years of experience designing scalable web and mobile applications. Adept at merging user-centered design methodologies with AI-assisted workflows and data analytics to accelerate design lifecycles and back UX choices with hard metrics. Proven track record of building unified design systems that cut development iteration times and bridge cross-functional team gaps.

TECHNICAL SKILLS

Design & Prototyping: Figma, Adobe XD, Photoshop, Framer, Stitch, Wireframing, High-Fidelity Prototyping

UX Research & Analytics: Usability Testing, Information Architecture, Design Systems, Design Thinking, Power BI, Tableau, MySQL, Python (Seaborn)

Frontend Development: HTML5, CSS3, JavaScript, React, Git, GitHub

Methodologies: Agile/Scrum, Cross-functional Collaboration, Stakeholder Communication

PROFESSIONAL EXPERIENCE

UI/UX Designer | Zikrabyte Solution – Bengaluru, India | May 2024 – Present

Designed intuitive, responsive end-to-end user interfaces for 20+ high-traffic web and mobile applications, resulting in a measurable lift in user engagement and feature adoption.

Reduced design ideation and UX documentation cycles by ~30% by introducing AI-assisted prompting workflows for rapid wireframing and user flow exploration.

Established a scalable, shared Figma component library and comprehensive design guidelines, improving design-to-development handoff efficiency and ensuring pixel-perfect consistency.

Conducted structured usability testing sessions, translating user feedback into iterative design improvements that directly lowered user error rates during critical user pathways.

UI/UX Designer (Internship) | FITA Academy – Chennai, India | November 2023 – January 2024

Applied rigorous design thinking methodologies to engineer responsive, multi-platform layouts, optimizing viewports flawlessly across desktop, tablet, and mobile breakpoints.

Coded functional frontend interactive prototypes utilizing HTML5, CSS3, and JavaScript, ensuring frictionless handoffs and highly accurate design implementation by production engineering teams.

Web Design Intern | Training Trains Software Inc – Salem, India | June 2023 – July 2023

Assisted senior design leadership in mapping user flows and translating wireframes into polished interface components for web applications.

Organized qualitative data from user testing sessions to present clear, actionable product recommendations directly to engineering and product teams.

PROJECTS

SmartEdLab: AI-Powered Language Learning Platform

Designed the end-to-end user experience for a multi-tenant learning ecosystem serving students, institutions, and training organizations.

Architected user flows and interactive prototypes for core product pillars, including self-paced courses, live instructor dashboards, real-time AI feedback mechanisms, and interactive LSRW skill-building modules.

SellSmart: AI-Powered Electronics Resale Platform

Crafted a frictionless, trust-focused e-commerce workflow prioritizing quick conversion paths for instant AI-based price valuations and doorstep pickup scheduling.

NSR Technologies: Training & Career Development Platform

Designed a high-conversion layout for an education portal, optimizing user flows to help digital learners easily access practical projects, career support tools, and live expert guidance.

EDUCATION & CERTIFICATIONS

Bachelor of Science (B.Sc.) in Computer Science | Jairam Arts & Science College (2021 – 2024)

Certification: UI/UX Designing & Development | FITA Academy (January 2025)

Certification: Data Analysis with Python, SQL & Visualization | Udemy (November 2025)

Certification: Cybersecurity Orientation Program (March 2024)
