Professional Summary

Creative and detail-oriented UI/UX Designer with 1.3+ years of experience designing responsive web and mobile applications. Skilled in user research, wireframing, prototyping, design systems, usability testing, and AI-assisted design workflows. Experienced in leveraging AI tools to accelerate UX research, content generation, user flow creation, design exploration, and productivity enhancement. Passionate about creating intuitive, user-centered digital experiences that drive business growth and customer satisfaction.

Work Experience

UI/UX Designer

Zikrabyte solution | Bengaluru, India | May 2025 – Present

- Designed intuitive user interfaces for web and mobile applications.
- Created wireframes, user flows, information architecture, and interactive prototypes.
- Reduced design iteration time by leveraging AI-assisted design workflows.
- Improved collaboration efficiency between design and development teams.
- Utilized AI tools to accelerate design ideation, content creation, UX documentation, and workflow optimization.
- Designed responsive interfaces ensuring consistency across multiple devices and screen sizes.

UI/UX Design & Development

Fita Accademy | Chennai, India | November 2025 – Janu 2026

- As a UI/UX Designer, I bring that same curiosity into my work, crafting intuitive and visually stunning experiences. The visual and functional aspects of a website, ensuring a seamless user experience. Frontend Development in building responsive and interactive web applications. Highly effective web pages that performed brilliantly on mobile, tablet & desktop.

Web Designing

Training Trains Software Inc | Salem, Tamil Nadu, India | June 2023 – July 2023

- Assisted in designing intuitive user interfaces for web and mobile applications. Collaborated with developers to ensure seamless design implementation. Conducted usability testing and presented findings to the team.

Technical Skills

- Designing: Figma, Photoshop, Adobe XD, Framer, Stitch
- Scripting: Python, JavaScript, React
- Version Control: Git, GitHub
- Analysis: Power BI, Microsoft Excel, MySQL, Tableau, Seaborn, Matplotlib
- Web Technologies: HTML, CSS

Certification

Data Analysis – Udemy | Nov 2025

Data analysis, data visualization, SQL, Excel, Python, and statistical techniques. Learned to clean, analyze, and interpret data, create dashboards.

UI/UX Designing & Development – FITA | Jan 2025

Gained hands-on experience in user research, wireframing, prototyping, user interface design, user experience principles, design thinking, and usability testing. Developed skills in creating intuitive and user-friendly digital experiences using industry-standard design tools and methodologies

Data Analysis – Udemy | March 2024

Completed a 3-hour Cyber Security Orientation Program focused on cybersecurity fundamentals, threat awareness, safe online practices, and data protection concepts.

Projects

SmartEdLab – AI-Powered Learning Platform

- SmartEdLab is a modern AI-powered language learning ecosystem designed for students, educational institutions, and training organizations. The platform combines self-paced learning, AI tutor assistance, live instructor-led classes, assessments, and white-label institution management into a single scalable solution. It helps learners improve Listening, Speaking, Reading, and Writing (LSRW) skills through personalized learning paths, real-time AI feedback, and interactive live sessions. Set up multiple virtual machines (App, DB, MQ, Cache) using Vagrant and VirtualBox.

Sell Smart - Ecommerce

- SellSmart is an AI-powered electronics resale platform that helps users sell used devices effortlessly through instant price evaluation, free doorstep pickup, and secure payments. The platform focuses on delivering a seamless user experience while encouraging sustainable recycling and responsible electronic waste management.

NSR Technologies

- At NSR Technologies, we help learners gain real-world skills through industry-oriented training, practical projects, expert guidance, and career support. Our focus is to prepare individuals for today's competitive job market while enabling organizations to access highly skilled talent. We believe in continuous learning, innovation, and creating opportunities that drive professional growth and success.

Education

Bachelor of Science (B.Sc) – Computer Science | Jairam Arts & Science College | 2021–2024

Languages

Tamil, English, kannada
